

**ACCELERATE YOUR PERFORMANCE...
GO ONLINE WITH ISTARXCHANGE!**

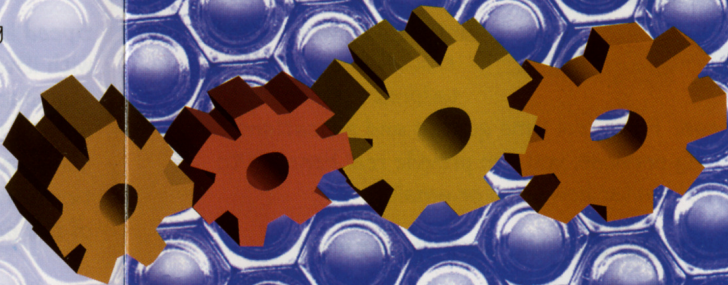

Our services will help you to quickly and profitably meet all customer demands. We can help you better predict demand and more accurately position your resources to meet market needs. Our Supply Chain Planning Services provide turbo-velocity responsiveness to quickly react to every market shift and curve.

You can reduce inventory levels, improve customer service and upgrade asset utilization. And all this translates into more value delivered to your customer.

**WE'VE GOT THE
BEST LINE FOR
ONLINE CUSTOMER
SUPPORT.**

Our support process begins with onLine product documentation and specifications, troubleshooting and general support information. We also provide automated help desks and call centers for every transaction. We'll help you support your customers even after you make the sale. We can help your customers get the information, service and supplies they need to experience a positive buying outcome. And our Customer Care services will assist them every step of the way.
